Title: None of the Above

Date:2021-22

Media:audio/video installation

Video Link :

Description:

4K (16 x 9) audio/video installation projected in portrait/vertical orientation. The minimum vertical dimension is 10 ft (305 cm). The artist recites a reflexive text in real-time that playfully feeds back on itself between the absolute values of ones and zeros. As hand movements allude to the idiomatic triad—see no evil, hear no evil, speak no evil—a visceral portrait emerges from an evolving loop aggressively cut with overlapping patterns of time displacement.

Edition of two and one artist’s proof

Spoken Text:*Exacting Light/None of the Above* © 2011 revised 2021 by Gary Hill

one less one

un-less

lossless

one loss, one less

the lessons of one

lost on none

nonetheless

no one knows

one from one

an "n" number of ones

change the words

zero from none

stop

one stops

stop gap

every breath

stopped out

one breathes

it’s always the same

zero-sum game

points

vanishing

one at a time

the arrows fly

Eros dies

a rose enfolds

zeroing in

every other round

turns inside out

my hand is backwards

you're in the wrong position

it’s always the same

difference

one, zero

next to next

the next ex

exists

exactly

as if ex could occlude "act"

ex acts like ex

exes' exit

one ext out

of existence

stop

one stops

breathe

one breath

stop gap

it’s always the same

difference

between points

one wanders

end to end

begin to begin

change the words

around arrows

crossing zero

one wonders (the won-der of one)

no-won-der

let the brain breathe

your hand is backwards

I'm in the wrong words

turn-a-round

zero on its head

the inside part

he can see her own face

disappear

one of the ones is not here
